

## The Benchmark Since 1955

Fabricated for the Corps of Engineers, state transportation departments, local governments, and private industry, The WASKEY Bridge™ is the benchmark for medium-span bridges.

Versatile enough to meet a wide array of needs, The WASKEY Bridge™ also offers economic advantages when blended with other bridge systems on long-span projects.

### BRIDGE OPTIONS INCLUDE:

- Designed to HS20-44 or Owner Requirements
- 19', 20', 25', and Custom Clear-Spans
- Straight, Skewed, and Flared Designs
- Crowned or Flat Decks
- Vertical or Horizontal Curves
- Extended Capsills for Utilities or Walkways
- Stepped Capsills for integration with other systems

## The WASKEY Total Bridge Solution™
